Course Instructor	Nadher D. Radia				
E_mail	nadherdaman@gmail.com				
Title	Organic Chemistry				
Course Coordinator	Type here the came of course coordinator				
Course Objective	To enable students to understand the chemistry of Carbon compounds including the classification, properties and rxn. It includes understanding the basic structure Of different org. cpds and their derivatives , their rxn and stereochemistry . In addition the same studies will be applied for the heterocyclic				
Course Description	<ol style="list-style-type: none">1. the nature of Carbone compounds and their properties2. the properties of rxns of different functional group in org. cpd, and their stereochem. And it's effect in rxns3. the properties and nature of rxn. Of heterocyclic cpds				
Textbook	<ol style="list-style-type: none">1. Organic chemistry by Robert T. Morrison and Robert N. Boyd2. Organic chemistry by McMurry 5th ed. Thomason learning CA, USA 2000				
Course Assessment	Term Tests	Laboratory	Quizzes	Project	Final Exam
