### [2] Energy and Climate Change (EC)

#### [2.1] Energy Efficient Appliances Usage

LED lighting lamps

Lightening using solar system, LED lightening, and low power consumption fans

**Description:**

University of Qadisiyah has implemented a plan to reduce electricity consumption by using low-energy lamps such as LED, and fans. Solar energy has also been utilized by solar systems for both lightening the campus streets and watering gardens via sprinkler systems.

| Appliance | Total Number | Total number energy Efficient appliances | Percentage   |
|-----------|--------------|------------------------------------------|--------------|
| LED Lamp  | 200,000      | 190,000                                  | 95%          |
| Fan       | 200          | 120                                      | 60%          |
|           |              | <b>Average Percentage</b>                | <b>77.5%</b> |
