### [2] Energy and Climate Change (EC)

#### [2.5] Renewable Energy Sources in Campus

	 	 
Solar power used in lightening	Solar power used in watering	Solar power used in air conditioning

#### Description:

Since the main renewable energy source in middle east is the sun, there are 100 solar panel systems for on campus street lighting which provide  $100 * 100 = 10000$  W. For the air conditioning they provide 880 W, and for watering they provide 1200 W.
